Student Services

FINANCIAL AID

Disbursements are sent to eligible students who have applied for need-based financial aid at their addresses in August and January of Years III and IV or through automatic deposit into a bank account. Remember, you must apply for financial aid each year you will be enrolled in the School of Medicine. The application process for federal student aid and for the medical school's need-based scholarships begins in January each year. Students are eligible for needs-based scholarships only if they have received at least one educational loan during the year they apply for scholarship funds.

CLINICAL MENTORING PROGRAM

The Office of Recruitment and Student Affairs coordinates a mentor program that matches you with a clinical faculty member in one of your specialties of interest. You and your mentor will meet several times throughout the third and fourth years of medical school to discuss clinical experiences, development of physician identity, and career plans as students begin the specialty decision-making process.

PLANNING YEAR IV

In January of your third year, the Office of Medical Education (*OME*) will hold a "Planning Your Fourth Year" workshop for all students. During the workshop you will receive information and planning forms to use to organize your final year as medical students.

AWAY ELECTIVES

All out-of-state electives will require an application. The Recruitment and Student Affairs offices in Reno and Las Vegas will assist students in processing applications for these electives. Please see Joyce Heiser for assistance. The timeline for these applications can be found in this guide on Page 11.

STUDENT ADDRESSES AND CHANGES

It is very important that you notify Recruitment and Student Affairs of your new mailing address and telephone numbers as you make housing arrangements. If you do not already possess a pager and/or cellular phone, you may want to consider purchasing one. Clinical departments will need to contact students with schedule changes and/or residents will need to find students quickly.

You can email changes to Brandi Taylor at btaylor@medicine.nevada.edu, or you can call 775-682-8351, or you can fax changes to 775-784-6194.

For your convenience, a change of address form is included at the back of this guide (see *Appendix A*).

EMAIL

It is important for students to continue accessing email accounts because important information about financial aid, deadlines, and other items important to students is communicated in this way. Students can continue to use computers located on the main campus or access their accounts remotely. Please keep your email address up-to-date.

TEXTBOOKS

Some of the textbooks are available on-line through Savitt Medical Library's website, or through the clinical department mentor. Other texts are available through the UNR bookstore. Students should contact the clerkship coordinator for textbook information.

Campus-Specific Information – Student Services

Reno

LOCATION AND CONTACTS

Students continue to access all student services at the School of Medicine Pennington Medical Education Building, second floor, while in Reno. Faculty and staff include: Cheryl Hug-English, M.D., Dean, chugenglish@medicine.nevada.edu; Peggy Dupey, Ph.D. Assistant Dean for Student Affairs, pdupey@medicine.nevada.edu; Kristine Nelson, graduation coordinator and emergency loans, knelson@medicine.nevada.edu; Linda Marshall, Admissions Coordinator, lmmarshall@medicine.nevada.edu; Gina Sella, Outreach Coordinator, gsella@medicine.nevada.edu; Sharon Muldoon, AOA and Financial Assistance Coordinator, smuldoon@medicine.nevada.edu; Brandi Taylor, Coordinator of Medical Student Records, btaylor@medicine.nevada.edu; Pat Romney, Receptionist, promney@medicine.nevada.edu; Jenna Reith, Information Technology Analyst, jreith@medicine.nevada.edu; Cathy Four Administrative Assistant, cfour@medicine.nevada.edu; Judy Hanrahan, Outreach Assistant Coordinator, jhanrahan@medicine.nevada.edu.

PARKING

Parking at Reno clinical sites is generally plentiful. Parking at the Veteran's Affairs Medical Center can be difficult due to space limitations, but is open with no required permit.

SCHOOL OF MEDICINE MERCHANDISE

A complete selection of School of Medicine t-shirts, sweatshirts, mugs, hats, ties, license plate frames and other merchandise is available in Reno and Las Vegas for your shopping convenience. The Office of Recruitment and Student Affairs can help you make your selection.

LAS VEGAS

LOCATION AND CONTACTS

The Las Vegas **Office of Recruitment and Student Affairs** is located at 2040 West Charleston Blvd., Suite 504 and provides a full range of support services for students. Ann

Diggins, M.A., Director of Student Services, adiggins@medicine.nevada.edu; Anni Drury Administrative Assistant, adrury@medicine.nevada.edu; Joyce Heiser, Administrative Assistant, jheiser@medicine.nevada.edu coordinates campus needs for students. Dr. Hug-English, chugenglish@medicine.nevada.edu, meets with students in Las Vegas by appointment

Walk-in hours and appointments are available Monday through Friday, 8 a.m. to 5 p.m., including the lunch hour. Students have a designated lounge adjacent to the Las Vegas office, in Suite 503. It can be entered 24 hours a day, seven days a week by utilizing a keypad. For assistance with codes, please call 702-671-6457.

At some point, early during your transition to the Las Vegas campus, students need to schedule a meeting with Joyce Heiser, jheiser@medicine.nevada.edu, 702.671-6457, in Student Affairs, Suite 504, to complete the required Las Vegas orientation paperwork. **Students must provide a copy of their current PPD test results (*within the last 12 months*) in order to receive a security badge for hospital access, cafeteria meal allotments, and parking pass.** During this meeting HIPAA training will be completed, all necessary paperwork filled out and turned in for UMC and UNSOM computer access, UMC Library privileges, a Desert Radiology PIN number for patient lab reports, and compliance documents that must be kept on file. Student orientation will also include all information relating to required building security codes and student lounge security access, a tour of the 2040 W. Charleston Building, medical student lounge, computer labs, library and UMC Hospital. This orientation will address a lot of questions and provide a smooth transition to the Las Vegas campus.

The Las Vegas **Office of Medical Education** is located at 2040 West Charleston Blvd., Suite 504. Sherry Marcu, smarcu@medicine.nevada.edu, 702-671-2302, helps to provide support services for students for the Office of Medical Education at the Las Vegas Campus.

INFORMATION TECHNOLOGY COMPUTER AND SYSTEMS ACCESS

It is our expectation that students will use computers in a professional manner.

- Students can access career planning and residency application sites and School of Medicine library information and resources.
- **PATIENT CARE CENTER LEARNING LABORATORY**
Medical students have access to a computer lab located in the Patient Care Center, 1707 West Charleston Blvd, Ste. 210B. This building is on the south side of West Charleston and two blocks down from the administrative offices of the School of Medicine. The lab is located on the second floor. This is also the classroom where integrated clerkship students meet each week, via videoconference.
- **UMC COMPUTER ACCESS**
Joyce Heiser, 702-671-6457, in the Office of Recruitment and Student Affairs, coordinates access to UMC computerized patient information for medical students while working at University Medical Center. Students will receive more information at clerkship orientations. Once the request for access is submitted, it will take about a week to provide access to UMC Computers. An email will be sent to your email account with the following instructions to finalize your request, once approved:

*"The Windows 2000 account for the list of user/s below has been created and is now ready for pick-up. The user/s will need to go to the **UMC***

Information Services Operations Area, located in the basement of UMC. He or she will need to show a picture ID (UMC badge, UNSOM badge, or a government-issued photo id) to receive his/her Windows 2000 sign on information. A response to this email is not necessary.

- o UNSOM Medical Student

Please call the Help Desk at 383-2227 for questions on how to use an application or any other training issues. Thank you! “

Please call Joyce Heiser at 702-671-6457, if you have questions or problems.

- **DESERT RADIOLOGY REPORT ACCESS**

A password is needed for access to patient radiology reports. To acquire a password, during your Student Affairs orientation, the proper paperwork will be collected and distributed to the appropriate department to secure a PIN number. This request takes approximately seven days to process. Once the PIN number is received, the student will be notified via email with the appropriate security information.

- **UNSOM EMAIL ACCESS**

Email may also be accessed at in the Medical Students Lounge in Suite 503 of the 2040 W. Charleston Building. It is essential for students to access their email accounts while in Las Vegas, several times each week. Important information about financial aid, student meetings, and information is sent to students using email. Computers in the student lounge are set up to allow you to quickly access your email account. Security access will need to be acquired to access the UNSOM computer system. A request will be sent to the Las Vegas IT Department for security privileges for UNSOM Computer and Internet access. This request takes approximately seven days to complete. Once the approval has been received, an email will be sent with the following message:

*“Your resolution to this Work order will be at the end of this email.
!!!!!!PLEASE READ CAREFULLY!!!!!!*

Thank you for using the work order system. You may be required to provide additional information noted on the RESOLUTION section. If you are required to provide additional information then please reply to this email. Work Order 5321 you opened 6/1/2007 2:11:08 PM (GMT-7:00) Pacific Daylight Time has been completed by Rene H. Rodriguez.

- **UNSOM WIRELESS NETWORK ACCESS**

A Wireless network is available for your laptops. The wireless system uses a wireless G network card, due to HIPAA regulations. Most laptops have an internal B wireless network card. If you plan on using the network with your laptop in the Student Lounge you may want to get a wireless G network card. We will have one available to check out during normal office hours (see Appendix E, Page 42, for instructions or contact Las Vegas IT Department.

For assistance with UNSOM email accounts or setting up your wireless network, please contact Las Vegas IT Help Desk:

Las Vegas IT Department
University of Nevada School of Medicine
Las Vegas, NV 89102
Phone: 702.671-5100
Email: ITHELPLV@unr.edu

MEDICAL STUDENT LOUNGE, SUITE 503

In the Medical Students' Private Lounge, you will find six desktop computer workstations, two laser printers, a scanner, fax services, along with comfortable seating / sleeper beds, study, table and chairs, microwave, refrigerator, medical reference books and message center, which are available for students, 24 hours a day, 7 days a week. UNSOM Computer, Internet, email services word processing, research, and communication only are available. Laptop lockers and/or student lockers are also available, upon a first-come, first-serve basis and can be reserved by contacting Joyce Heiser at 702-671-6457.

TELEPHONES

Telephones in the student lounge are available for local and long distance calls. Students should use the telephone's long distance capabilities for educational and professional purposes only.

TEXTBOOKS

Some of the textbooks are available on-line through Savitt Medical Library's website. Some are available for purchase at the Community College of Southern Nevada (CCSN) bookstore (6375 W. Charleston Blvd). Not all books are available through this source and may have to be purchased through the UNR bookstore. The Department of Surgery has textbooks available to students for checkout. Students should contact the clerkship coordinator for textbook information. The Health Science Library and bookstore is located on the West Charleston campus of the Community College of Southern Nevada, which is located at W. Charleston and Torrey Pines Blvd.

PARKING

You will need a parking permit to park in designated parking areas while working at University Medical Center (see *Appendix F, Page 43*). These are available through the UMC Badge Office. Metered parking is always available. Students can also park at the Patient Care Center, 1707 W. Charleston, and walk to UMC. The Patient Care Center is located at the intersection of Charleston Blvd. and Shadow Lane.

SCRUBS AT UMC

Medical students on surgical services (*in the Surgery and OB Clerkship*) can pick up scrubs at the Charge Nurse desk in surgery. Each of those departments will provide a list of medical student names to the Charge Nurse or you can provide the name of the Resident and/or Attending Physician you are assigned to. Medical students who are not on surgical services may wear their own scrubs to the hospital or can pick up scrubs from Linen Services at UMC, located in the hospital basement. UMC requests that students do their best to return the scrubs for cleaning in a hospital laundry hamper so that costs can be kept as low as possible.

SCHOOL OF MEDICINE MERCHANDISE

A complete selection of School of Medicine t-shirts, sweatshirts, mugs, hats, ties, license plate frames and other merchandise is available in Las Vegas for your shopping convenience. Please see Joyce Heiser, jheiser@medicine.nevada.edu, 702-671-6457, in the Student Affairs office in Las Vegas for help with your selection.

Career Development

CAREER PLANNING

Year III is a time to begin making decisions about your future specialty choice, in preparation for applying for residency and planning your fourth year of medical school. Workshops are held through the third year on topics including the "Careers in Medicine" (CiM) Program, specialty selection, and preparing for the residency match.

Advising: Individual appointments for career advising are available with **Cheryl Hug-English, M.D.**, chugenglish@medicine.nevada.edu in Reno; or, in Las Vegas, **Peggy Dupey, Ph.D.**, pdupey@medicine.nevada.edu in Reno; and **Ann Diggins, M.A.**, adiggins@medicine.nevada.edu, in Las Vegas.

The Office of Student Affairs also maintains a comprehensive database of physicians and many alumni in all medical specialties who are available to advise students on their career choices. For more information, please contact Dr. Dupey, pdupey@medicine.nevada.edu, or Ann Diggins, adiggins@medicine.nevada.edu.

The Program: The School of Medicine's program has been developed with the Association of American Medical Colleges (AAMC) Careers in Medicine: <http://www.aamc.org/students/cim/>

Student Access Codes for this program are generated individually. For assistance with individual access code assignments, please email Dr. Dupey, at pdupey@medicine.nevada.edu.

The Process: While some students begin medical school knowing what specialty they will pursue, most students are still undecided during the third year of medical school. **Careers in Medicine (CiM)** offers a structured program designed to help students explore all options.

As you work through the **CiM** program, students gain the tools to make an informed decision, based on guided self-reflection and information gathered about the many career options available to you. CiM and the School of Medicine program use a four-phase career development model:

- **Personal Career Assessment**
Important questions you'll consider: "Who am I?", "What do I like to do?", "What's **really** important in my work and life?" The goal of this phase is to achieve a greater understanding of you and to address the question, "**What do I want to do in my medical career?**"
- **Career Exploration: Specialty Information and other Medical Career Options**
You will explore the variety of specialties as well as the other career options available to you in the field of medicine. As you meet and talk with physicians in various specialties, you'll begin to learn about what physicians do in these areas, gaining a real-world perspective on their specialties.
- **Decision-Making**
Once you've collected enough information on all of the possibilities, you will

then compare what you have learned about yourself in the first phase with the information you've gathered about the specialties and other medical career options you're considering. CiM will then help you select a specialty you will pursue during residency.

- **Implementation**

In this phase CiM will guide you through applying for and being accepted into a residency program. You'll find valuable information and tips about the residency application process (*especially ERAS®*), interviewing, and the Match, along with things to consider in completing medical school and beginning residency.

“Careers in Medicine” is not a linear program. As you complete different aspects of the program and are exposed to different educational experiences, we encourage you to re-assess yourself using any and all of the tools available in the program. While the third and fourth years of medical school focus on **exploration, decision-making, and implementation** phases, many students find it helpful to revisit the **assessment** portion of the program.

Resources: Comprehensive career resources are available for students on the Reno and Las Vegas medical school campuses. The Reno center is located in the Savitt Medical Library. In Las Vegas students can access this information in the Office of Student Affairs at 2040 W. Charleston, Suite 503. A listing of those resources will be distributed to students in August. A list of helpful websites is listed here for your use.

OUT OF STATE ELECTIVES (OOS)

THIRD YEAR STUDENT TIMELINE

December

- Use the internet to “shop” for electives, narrow down the places/institutions where you might want to do an out-of-state elective.
- Seriously consider at least one elective at a “big name” school. Letters of recommendation from these well-known institutions can make a difference for students in the number of interview invitations during the residency application process.
- A great place to start is the Association of American Medical Colleges (AAMC). The organization’s website includes a compendium of electives for all member medical schools. You can find them at: <http://www.aamc.org/students/medstudents/electives/start.htm>

January/February

- Attend the “Office of Medical Education–Planning Your 4th Year Workshop”

February/March

- Contact schools/programs you selected earlier and find out the application procedures and requirements. Email works best at this point.
- Every program/school is unique and will require different procedures and information.
- Ask how early they accept applications. Schools generally fall into two categories:
 1. Applications not accepted until after the May deadline when school’s place their own students in fourth year slots.
 2. Applications accepted early, date-stamped, and reviewed in the order received.
- Get your records together. Typically schools need complete immunization records, including up-to-date TB documentation. Some also require hepatitis titers, varicella, or other unique health information. The more information you organize now, the faster you can put your applications together.

April/May

- Plan your out-of-state rotations in your fourth year schedule first. You can schedule your other electives around the out-of-state electives.
- Complete your applications. The Office of Recruitment and Student Affairs will process your applications. You can see the Student Records Coordinator in the Reno office and Joyce Heiser, 702-671-6457, in the Las Vegas office. Both offices will send out applications for you.
- A cover letter of recommendation from Dr. Hug-English is included with all applications. Some schools/programs require a letter from a faculty member in the specialty area. You can request these for specific programs as needed.
- Be flexible. If your first choice clinical elective is not available the dates you need at your first-choice institutions, choose another clinical elective that is related.

LIBRARY SERVICES

STATEWIDE

SAVITT MEDICAL LIBRARY

Pennington Medical Education Building
Phone: 775-784-4625 / Fax: 775-784-4489

Primary contact for assistance:

Phone: 775-784-4625

Library web site: <http://www.med.unr.edu/medlib>

Library Director: Jim Curtis

Email: jacurtis@unr.edu

TECHNOLOGY SUPPORT

The library program includes the Information Technologies Department, which provides assistance in all areas of computing and network access. Residents at any UNSOM location throughout the state may obtain help with software installation and use, security and virus protection, email, network connectivity and dial-up access, and general computing issues. Residents may take advantage of an email account through the medical school server, which also provides free Internet access through PPP dial-up if desired.

Primary contact for assistance:

Phone: 775-784-4625

IT Website: <http://www.med.unr.edu/imed/dept/it>

Help Desk Manager: Robert Boyd

Email: rboyd@unr.edu

ELECTRONIC JOURNALS, BOOKS, AND DATABASES

The library subscribes to over 3,500 journal titles in electronic format. Journals are available online to any Resident with an Internet enabled computer. We also provide access to a growing number of full-text books, including Harrison's Textbook of Internal Medicine and roughly eighty online texts covering the clinical disciplines. Residents can link to clinically useful databases through the Savitt Library website, including Medline, ToxLine, Science Citation Index, FirstConsult, PsycInfo, and the Cochrane Library of Systematic Reviews. Access to proprietary online resources is authenticated through the use of a proxy server and requires some simple changes to settings on your web browser (*Internet Explorer* or *Netscape*). Help with proxy access and other computing/information management issues can be found in tutorials at:

<http://www.med.unr.edu/medlib/help.htm>

Links to full text journal and book collections can be found at:

<http://www.med.unr.edu/medlib/fulltext.htm>

Some online journals, databases, and textbooks require a password for access in addition to proxy server authentication. Passwords for these resources are maintained on a special webpage, which is password protected. This page is found at: <http://www.med.unr.edu/medlib/pass.asp>.

To access this page use the following login and password:

LOGIN: *VIRTUAL*

PASSWORD: *LIBRARY*

DOCUMENT DELIVERY / INTERLIBRARY LOAN

The Savitt Medical Library provides rapid and convenient Document Delivery / Interlibrary Loan Service will delivery copies of articles to your email account. Requests for articles can be submitted using **Loansome Doc** via **PUBMED** of library's **Illiad** System. This is a fee-based service and you will be billed for your articles every quarter. In order to use our service, you must have a valid email account and register with **Lonsome Doc** and **Illiad** at this website:

- <http://www.med.unr.edu/medlib/LibServices/docdel.html>

For more information, please contact:

Norman Huckle

Title: Head, DDS/ILL

Phone: 775-784-4625

Email: nhuckle@medicine.nevada.edu

INSTRUCTION AND REFERENCE

The Library conducts an ongoing series of seminars, including accredited CME, which focus on the use of the Internet in clinical medicine. Classes are held both in Reno and Las Vegas. We are also available to individual assistance in helping you use print and electronic resources to meet your information needs, and to answer basic reference questions. The primary contact for classes and assistance is:

Terry Henner

Title: Head, Information and Education Services

Phone: 775-784-4625

Email: thenner@unr.edu

COLLECTIONS

The library maintains a substantial collection of textbooks, reference works, and general monographs in support of the educational, research, and patient care activities of the medical school program. Books can be requested for offsite delivery through our Document Delivery Services Department.

GETTING STARTED

Access to many key library resources and services is predicated on having a library barcode number. All residents are assigned a library barcode at the start of their residency. These barcodes are generally distributed through your department’s residency coordinator or office administrator. Any questions about barcodes or using your library account should be addressed to:

Robert Boyd
Title: Help Desk Manager

Email: rboyd@unr.edu

RENO

WASHOE MEDICAL CENTER LIBRARY

Phone: 775-982-5693 / Fax: 775-982-5735

Librarian: Sherry McGee

Email: sherry-McGee@washoehealth.com

Library Assistant: Carol Best

Email: cbest@washoehealth.com

Hours: Monday–Friday, 8:00 a.m.-4:30 p.m.

The Medical Library is located on the first floor of the Washoe Professional Center, in with the Health Resource Center. It is open Monday through Friday, from 8:00 a.m. to 4:30 p.m. The library is a full-service library and has 94 hard copy journal subscriptions, 1,800 virtual journal titles, and approximately 1,500 textbooks available for circulation, a small videotape collection and two computers with internet access. **MD Consult** and **FIRST Consult** are available online in the Library throughout the Washoe Medical System. **CINAHL**, some **Cochrane** databases, a psychology, a pharmaceutical, and a health business database are accessible, and provide much full text journal access. Microsoft Office is also available.

Library cards are available to medical students while rotating through the hospital. Applications are available from the Medical Library and the UNSOM office. After hours access will soon be available.

Full reference and search services are available through the library staff. Interlibrary loans are provided for materials not owned by Washoe Medical Center. Most library material circulates. Texts may be checked out for two weeks with two renewals possible. Back issues of journals may be checked out for one week, but are not renewable. Current journals may be checked out for copying or, in some cases, overnight. For any exceptions, arrangements must be made with the Library staff.

LAS VEGAS

HEALTH SCIENCE LIBRARY, WEST CHARLESTON PUBLIC LIBRARY

6301 West Charleston Boulevard

Las Vegas, NV 89146

Phone: 702-507-3944 / Fax: 702-507-3953

Librarian(s):

Florence Jakus, Ed. D. and Jewel Guy

Email: jakusf@lvccld.org

Email: guyj@lvccld.org

Library Assistants: Thomascena Kitt, Francis Reyes, and Anthony Potts

Hours: Monday-Thursday: 9:00 a.m.–9:00 p.m.; Friday-Sunday: 10:00 a.m.–6:00 p.m.

Located adjacent to the Community College of Southern Nevada's (CCSN) West Charleston Campus, the Health Science Library is a specialty collection within the West Charleston Public Library and is part of the Las Vegas/Clark County Library District. The Health Science Library supports CCSN's allied health programs and is open to the public.

Resources include:

- Reference collection with core medical textbooks
- 135 journal subscriptions with an emphasis on nursing, allied health, dentistry, consumer health, and family and internal medicine
- study rooms
- access to research databases on the library district's web page
- access to **PubMed** and the internet via the library's public workstations
- Reference, **DOCLINE** services, and instruction on using research databases are available upon request.

UNIVERSITY MEDICAL CENTER LIBRARY

2040 West Charleston Boulevard
Fifth Floor, Suite 500
Las Vegas, NV 89102
Phone: 702-383-2368 / Fax: 702-383-2369

Librarian: Dee Disardina, MS, AHIP

Hours: Monday-Friday, 7:30 a.m.-4:00 p.m.; Closed Saturday and Sunday. No after-hours access available.

RESOURCES

Print and online textbooks and journals, directories, videotapes, internet and **MEDLINE** access, photocopier (*for copying library materials only*).

CIRCULATION

UMC and UNSOM staff and students with a work/school Identification Badge may check out materials.

Checkout guidelines:

- Books - two weeks
- Journals - three days
- Videotapes (*limit three per person*) – three days
- Current month journals - do not circulate
- Reference books – do not circulate

Circulating materials may be renewed if there are no standing requests for the item. Late fees are assessed at a rate of \$0.25 per day. Call the library or stop by the library information desk to renew. THE LIBRARY RESERVES THE RIGHT TO RECALL AN ITEM IF NECESSARY.

Please return all borrowed items to the library information desk or through the night-deposit slot, next to the library entrance. Lost or mutilated material(s) must be replaced at their current value.

SERVICES

Literature searches, reference assistance, circulation, biomedical information on the internet and **MEDLINE** classes in the library are provided at no charge. **Interlibrary Loan (ILL)** and **Loansome Doc** are provided for a fixed fee.

Medical students are expected to do their own literature search and photocopying. There is a \$0.20 charge per copy for photocopying.

SUNRISE HOSPITAL MEDICAL LIBRARY

Phone: 702-731-8210 / Fax: 702-731-8674

Librarian: Amber Carter

Email: sunrise.library@hcahealthcare.com

Library Assistant: Clarita Bugarin

Hours: Monday-Friday, 7:30 a.m.-4:00 p.m.

Located in the administration wing directly across the hall from the Adelson Auditorium, the medical library provides current research information, resources and services concerning healthcare and related subjects to the hospital's professional and general personnel. 24-hour access is available to medical staff and employees using the identification badge system. The medical library maintains a collection of current medical literature, including 300+ journal titles, 2,500+ textbooks, specialized CD-ROM databases, current ready reference section, audiovisuals and electronic format materials.

HEALTH POLICIES

Students should refer to the 2007-2008 School of Medicine Student Handbook for information about specific health policies. Below is an overview of the policies affecting students during their clinical years. Visit the website at www.unr.edu/shc or call 775-784-6598.

HEALTH INSURANCE

Insurance Requirements

All medical students are required to enroll in the School of Medicine health, life and disability plan unless they can provide documentation of comparable coverage through a parent's or a spouse's insurance policy. Please consult the brochure for details about benefits and coverage. **Medical insurance waivers must be reviewed and approved by the student health insurance coordinator located at the Student Health Center.**

Premium Payment: The insurance premium is paid in August and January with tuition and fees. The policy provides comprehensive coverage for both inpatient and outpatient services. Coverage for spouses and children is optional and requires separate enrollment and an additional premium.

Disability/Life Insurance: Disability and life insurance cannot be waived. Contact the Office of Recruitment and Student Affairs in either Reno or Las Vegas for information regarding the insurance program.

Medical students must notify the Office of Recruitment and Student Affairs immediately of any changes in insurance coverage (*e.g. termination of coverage under parent's policy*) or status (*marriage, birth of a child, divorce*) Students must also notify the office of any requested changes in dependent coverage.

RENO

STUDENT HEALTH CENTER

The primary health care provider in Reno continues to be the Student Health Center (*SHC*) (*on the UNR campus*) for third and fourth year medical students. The SHC is located across from the Pennington Medical Education Building.

COUNSELING SERVICES

A complete list of referrals for all types of counseling services is included as an appendix in this guide. Students are also invited to talk with Dr. Hug-English, Dr. Dupey, or Ann Diggins.

PHARMACIES

Student can continue to use the Student Health Clinic pharmacy located on the main campus, across from the Pennington Medical Education Building. Students can also fill prescriptions at pharmacies in Sav-On Drugstores and Smith's Grocery Stores. Other pharmacies may be included. Please check your policy information.

DENTAL CARE

Students can receive discounted dental care at the locations listed in Appendix B, Page 36, in this guide.

VISION

Students can receive discounted vision care at the locations listed in Appendix B, Page 36, in this guide.

LAS VEGAS**UNIVERSITY OF NEVADA SCHOOL OF MEDICINE CLINIC**

The University of Nevada School of Medicine Clinic is located at 2410 Fire Mesa, Suite 180, and is the primary health care provider in Las Vegas for students enrolled in the School of Medicine insurance program. The clinic's hours are 8:00 a.m. to 5:00 p.m., Monday through Friday. The clinic provides general outpatient medical care. For an appointment call: 702-992-6888. The University of Nevada School of Medicine Clinic also maintains confidential records of fluid exposures.

COUNSELING SERVICES

A complete list of referrals for all types of counseling services is included in Appendix D, Page 39, in this guide. Students are also invited to phone and talk with Dr. Hug-English at 775-784-6063, Dr. Dupey at 775-784-6063, or Ann Diggins at 702-671-2202.

PHARMACIES

This information was not available at the time of updating, please contact the insurance company.

DENTAL CARE

Students can receive discounted dental care at the locations listed in Appendix C, Page 38, in this guide.

VISION

Students can receive discounted vision care at the locations listed in Appendix C, Page 38, in this guide.

IMMUNIZATIONS (POLICY # SA-HO2-93)

Each student will have an immunization file established at the Student Health Center upon matriculation to the School of Medicine. If an immunization has been received off-campus, proof must be provided to the Student Health Center so the immunization passport can be certified. Completion of all the health requirements will be documented in students' files. Proof of immunity must be documented by record of immunization or by serological evidence of immunity.

1. All medical students are required to obtain the following immunizations:
 - Varicella titer
 - Measles, mumps & rubella (*students born in 1957 or later must receive two doses of MMR*)
 - Diphtheria/tetanus (*must show evidence of this immunization within the past 12 months*)
 - Hepatitis B (*series of three*)
 - PPD (*two-step*)
2. Medical students are required to comply with the standard immunization requirements, and, because of potential exposure to blood and body fluids, must also be immunized against Hepatitis B. Documentation of: (a) receiving three Hepatitis B vaccines, (b) having started the Hepatitis B vaccine series, or (c) serological proof of immunity to Hepatitis B, will be required at the time of first-year Fall registration. (*The Student Health Center offers the Hepatitis B vaccine to medical students during freshmen orientation. The fee is \$105.00 for the service.*)
3. Medical students must have a skin test for tuberculosis within one-year of first-year enrollment. **Skin tests for tuberculosis will be required annually during medical school enrollment and are available at the Student Health Center in Reno and the UNSOM Clinic in Las Vegas.** For those students who have not had a PPD test before, a two-step test will be done.

Students who have a positive tuberculin skin test result are required to complete the following: Seek follow-up care at the Student Health Center in Reno, or the State Health Department. In Reno, the health department is located on Wells Avenue, next to the fairgrounds. In Las Vegas, the department is located at 625 Shadow Lane and the phone number is: 702-383-1369.

The Health Department will provide you with two medications, INH, and B6.

- a. Take INH and B6 for 9 months. The Health Department will request your full health history to determine if you have any history of problems with INH.
 - b. Have a chest radiograph. You may go to the primary provider for your radiograph. In Las Vegas, it is the University of Nevada School of Medicine Clinic, located at the Fire Mesa Building clinic.
 - c. If negative, repeat chest radiographs are not needed unless symptoms develop that could be attributed to TB.
4. Students are financially responsible for obtaining these immunizations and supplying written documentation of compliance to the Student Health Center in Reno.
 4. Information regarding costs and immunization sites is available at the Office of Recruitment and Student Affairs.

EXPOSURE TO INFECTIOUS AND ENVIRONMENTAL HAZARDS (POLICY # SA-HO4-93)

You, as a medical student, and later as a physician, will be exposed to patients with all varieties of infectious disease. It is your responsibility to know the mode of transmission and prevention of these diseases. You will be expected to avoid physical contact with all bodily fluids and take appropriate preventive measures to protect yourself from patients with infectious disease. Also, you will be expected to protect your patients from exposure to you if/when you have a contagious disease.

All medical students will be educated and trained to prevent or reduce exposure to blood borne pathogens. Safety of medical students in the pursuit of their clinical training is of the utmost importance. Because of their inexperience, students have traditionally represented a large group reporting exposures to blood in hospital and clinical settings. For this reason, procedures have been developed to inform students of potential risk and teach them techniques and procedures designed to decrease or avoid exposure. In addition, follow-up, diagnostic and treatment regimens have been implemented to deal with exposures after they occur.

Education

Students are introduced to the concept of infection control and work-related exposure during their first year of medical school. Education and training regarding exposures will be updated annually throughout medical school. Students must attend sessions each year and be certified in order to continue patient care activities. Certification will be documented on the University of Nevada School of Medicine immunization card.

Students are expected to understand and comply with the following procedures:

1. Universal precautions
2. Needle/sharp safety
3. Use of protective equipment
4. Isolation guidelines

PROTOCOL FOR STUDENT EXPOSURE TO BLOOD-BORNE PATHOGENS

All exposures must be reported to either the Student Health Center in Reno or the UNSOM Clinic in Las Vegas, depending upon where the exposure occurred. Appropriate follow up treatment will be provided by one of the above providers.

Students are responsible for seeking both immediate and follow up treatment for exposures. Treatment includes laboratory evaluation for HIV, Hepatitis, and other infectious diseases. Students who desire counseling should contact the Office of Recruitment and Student Affairs.

Students' medical information, including laboratory evaluations, will remain strictly confidential and will be maintained separately from student files.

PLEASE NOTE THAT THERE ARE TWO TYPES OF FLUID EXPOSURES:

1. PRIORITY EXPOSURE

Priority exposures **DO REQUIRE IMMEDIATE** medical attention and laboratory work. These exposures include percutaneous injury with:

- Large bore hollow needles
- Deep puncture wounds
- Visible blood on needle or device used in patient's artery or vein
- Any exposure with an HIV positive patient should be considered a high priority

2. NON-PRIORITY EXPOSURE

Non-priority exposures **DO NOT REQUIRE IMMEDIATE** medical attention and laboratory work. These exposures include:

- Solid needle (*suture needle*) percutaneous injury
- Superficial injury
- Blood or fluid splash to mucous membranes or skin

Students beginning their third-year clerkships will be provided a handout that outlines the UNSOM protocol for exposures.

The University of Nevada, Reno Student Health Center is the designated facility for maintenance of records of all student exposures.

The UNSOM Family Medicine Clinic and Urgent Care Center, 2410 Fire Mesa, Ste. 180 (*near Mountain View Hospital*). in Las Vegas, the primary provider for medical students enrolled in the school's health insurance policy, is the provider for follow-up care for students who have a fluid exposure while in Las Vegas. The UNSOM Clinic provides reports of all exposures with the Student Health Center to protect the health of students.

General guidelines for exposures and treatment:

1. An incident report is completed at the time of the exposure, regardless of the facility in which the student is working.
2. Initial laboratory work should be obtained within three days following the exposure in the case of non-priority exposures (*see description above*) or immediately following the exposure in the case of priority exposures (*see description above*).
3. Follow up laboratory studies must be done six weeks following exposure and again six months following exposure. Copies of the test results must be forwarded to either the Student Health Center (*Reno*) or the UNSOM Clinic (*Las Vegas*).
4. The Student Health Center will maintain exposure information in a confidential file that is separate from the students' medical record. These exposure files will be kept in a secure location with restricted access.
5. Students who have failed to send the proper documentation of laboratory or other follow up treatment will receive a reminder card. If there is no response to the reminder card, after two attempts, a certified letter will be sent to the student reminding his/her of the importance of follow up. **If there is no response to the certified letter, no further attempts will be made to contact the student. The student will then be responsible for any further care.**

FLUID EXPOSURE PROTOCOL FOR THE RENO CAMPUS

For Non-Priority Exposures (*see description above*):

1. Report the exposure immediately to your attending physician and/or resident. If the exposure is non-priority, it is not necessary to obtain laboratory work in the emergency room of the facility.
2. Complete the UNSOM incident form
3. Do not allow the hospital or clinic to file a worker's compensation report. **Students are not eligible for worker's compensation** and the filing of a report will delay processing of insurance claims.
4. Contact the Student Health Center at 775-784-6598 to schedule an appointment for follow up treatment **within three days** of the exposure.

For Priority Exposures (*see description above*):

1. Report the exposure immediately to your attending physician and/or resident. If the exposure is non-priority, it is not necessary to obtain laboratory work in the emergency room of the facility.
2. Complete the UNSOM incident form
3. Obtain laboratory work as soon as possible following the exposure. If necessary, in the emergency department of the facility.
4. Do not allow the hospital or clinic to file a worker's compensation report. **Students are not eligible for worker's compensation** and the filing of a report will delay processing of insurance claims.
5. Contact the Student Health Center at 775-784-6598 to report the exposure and schedule follow up treatment.

FLUID EXPOSURE PROTOCOL FOR THE LAS VEGAS CAMPUS AND UNIVERSITY MEDICAL CENTER:

For Priority Exposures (*see description above*):

1. Report the exposure immediately to your attending physician and/or resident. If the exposure is non-priority, it is not necessary to obtain laboratory work in the emergency room of the facility.
2. Complete the UNSOM incident form
3. Obtain laboratory work as soon as possible following the exposure. If necessary, in the emergency department of the facility.
4. Do not allow the hospital or clinic to file a worker's compensation report. **Students are not eligible for worker's compensation** and the filing of a report will delay processing of insurance claims.

5. Contact Aron Rogers, D.O., at the University of Nevada School of Medicine Clinic at 702-992-6888 to report the exposure and schedule follow up treatment.

FOLLOW-UP CARE

As a professional, it is your responsibility to follow-up on your own laboratory work and obtain necessary treatment. If laboratory work and other treatment is obtained at a facility other than the Student Health Center (*Reno*) or the UNSOM Clinic (*Las Vegas*), please send a copy of your laboratory results to either Jan Gustafson (*Reno*) or Mahasin Majied (*Las Vegas*).

If you have been immunized, and are Hepatitis B antibody negative (by lab test) and you are exposed to a Hepatitis B positive patient, you should get HBIG and Hep B vaccine boosters.

FLUID EXPOSURE PROTOCOL FOR THE LAS VEGAS CAMPUS

PROCEDURE

Who do I inform if I have an exposure?

Medical students report the exposure to the **On Duty Administrator** and fill out a C-1 exposure form. The attending physician, resident or nurse should know who this On Duty Administrator is and how to contact them.

- A. **Monday-Friday, 8 – 5 p.m.**, (regular working hours): A member of the Exposure Evaluation Team will meet with the student as soon as possible to provide counseling, risk assessment and reach a decision with the student about the need for post-exposure prophylaxis.
- B. **Night, weekend, holiday**: A member of the Exposure Evaluation Team will be on-call and respond by beeper/phone to the talk with the medical student.

1. Should I go to the emergency room?

Emergency room visits will only be required if the injury requires emergency care. The **Employee Health Nurse Practitioner** will meet with the student within 72 hours of the exposure to review lab results.

2. Does my insurance pay for the care I receive?

Medical students are considered Health Care Workers by University Medical Center (UMC). **UMC will provide, at NO COST to all Health Care Workers, all necessary blood tests, initial counseling and early evaluation, and, if appropriate, a 28-day HIV post-exposure prophylaxis, as outlined in the Fluid Exposure Protocol.** All Health Care Workers will be evaluated and counseled within two hours by the UMC Exposure Evaluation Team.

3. What types of exposures does this protocol cover?

This protocol is designed to evaluate post-exposure treatment for HIV and Hepatitis B.

4. Should I get any follow-up care?

The protocol at UMC is designed to provide care/medications (if required). Students should follow up with the primary care clinics in Las Vegas.

5. Where can I read the complete protocol?

The complete UMC Fluid Exposure Protocol is available for review by students in the Office of Recruitment and Student Affairs, as well as the Department of Surgery and the Department of Obstetrics/Gynecology.

6. Do all exposures put me equally at risk?

Students who experience percutaneous injuries are the most at risk for exposures. Students who experience mucous membrane or non-intact skin exposures are less at risk. Complete information on procedures for the different exposure types are available in the Fluid Exposure Protocol at the locations lists above.

7. What if I get told to do something different?

This is a new policy and procedure adopted at the end of June 06 at UMC. It may take time for the information to get distributed to everyone. You can contact the Office of Recruitment and Student Affairs or your Clerkship Coordinator if you have questions.

COUNSELING SERVICES

Following is a list of counselors and other health professionals who provide psychological services and support.

Providers at both the UNR and UNLV campuses are listed. Most of these campus providers offer services that are either free of charge or very low-cost. Some of the campus facilities listed are training sites for graduate students in psychology and counseling.

If you are enrolled in the School of Medicine's insurance policy, counseling is covered at 50% and subject to a \$200.00 deductible, if you select a provider who is a member of the Horizon Network. Please check the Horizon Network Directory or call 800-884-6875 to see if a provider is a member of the network.

Please note that you do not need a referral from either the Student Health Center or the Primary Care Clinic in the Fire Mesa Building to obtain psychological services. Your medical records are strictly confidential.

COUNSELING REFERRAL LIST – SEE APPENDIX D, PAGES 39-41, FOR BOTH RENO & LAS VEGAS

THIRD YEAR CLERKSHIPS

Please Note: *The contents and schedules contained herein are subject to change. The following is provided to give you a “general” overview of the third-year clinical clerkships.*

CLINICAL REASONING IN MEDICINE COURSE

Clinical Reasoning in Medicine brings to the forefront the emphasis on the continued development of each student’s clinical reasoning skills. Students will have the opportunity to refine their clinical reasoning skills in the context of common problems of adult and pediatric patients utilizing a systems-based, longitudinal approach. This core curriculum occurs concurrently with the 24-week experiences in family, internal, and pediatric medicine.

The core curriculum consists of eighteen weeks of modules of written material for self study. In addition, there are three sessions that present a portion of the Robert Wood Johnson, “End of Life” curriculum developed for medical students. An extensive list of objectives for each module is in the course syllabus.

WHERE TO REPORT: ORIENTATION

The initial twenty-four week block, a statewide Transitional-Year Orientation will be held on Monday, July 2 – Friday, July 6, 2007, in Reno Pennington Room 16 and the Patient Care Center, 1707 W. Charleston Blvd, Room 210B in Las Vegas. The Spring Semester block starts January 2, 2008. Locations of the orientation will be sent to you later in the year.

TEXTBOOKS

A list of recommended texts and readings will be included in the syllabus. In addition to this list, an extensive statewide description of information resources, is also included in the syllabus. Faculty evaluators will suggest other sources for reading.

SCHEDULE

The Clinical Reasoning in Medicine course will be conducted over the course of 24 weeks. On Tuesday afternoons, the core curriculum will be covered with a faculty evaluator and facilitator and with students from other sites

Reno: Pennington Medical Education Building, Room 20

Las Vegas: Patient Care Center, 1707 W. Charleston, Computer Lab, Room 210B

Elko: 1500 College Parkway, McMullen Hall, Room 125

FAMILY MEDICINE

The six-week family medicine rotation is held at four separate locations. The majority of the students' time is spent at our new facility located at 2410 Fire Mesa, Suite 180 (*on Smoke Ranch between Tenaya and Buffalo*). There students see patients from the community with both residents and faculty. Morning report, a weekly EKG course, and weekly resident and student didactic sessions are also held at our main clinical facility. Students will also see patients at UMC hospital and will perform **H&P's** and **SOAP** notes on Pediatric, Adult, and Obstetrical patients. Once a week students will rotate with a Community Preceptor, who are specially selected Family Physicians in the community. There, students will learn about "true-life" Family Practice and office management. Finally, students will see patients at the UNLV Student Health Center with our faculty preceptors (*located next to the Thomas and Mack Center*). Here, the students will have the opportunity of seeing UNLV students and learning about such topics as contraceptive care, STD's, depression/anxiety, sports injuries and other diseases that are prevalent in this unique patient population.

GOALS AND OBJECTIVES

- 1) For students to learn, practice, and become excited about the many aspects of Family Medicine
- 2) For students to work with and see how a community Family Physician practices medicine
- 3) For students to improve assessment and diagnostic skills by seeing patients in both a clinic and hospital setting
- 4) For students to learn how to research topics, and prepare a professional presentation
- 5) For students to learn how to read a basic EKG

During this rotation students are expected to attend all didactic sessions, do one case-based power-point presentation, read all of the required readings (*distributed at the orientation*), and complete a list of core competencies (*signoff card distributed at orientation*). Students will also turn in a folder at the end of their rotation, which contains a copy of their presentations, and research.

A one-hour orientation is held on the first Monday of the rotation at 7:30 a.m. at the main clinic located at 2410 Fire Mesa, Suite 180 (*on Smoke Ranch between Buffalo and Tenaya*). There, students will be given a folder with didactic schedules, a core-competencies check-off card, required readings, suggested textbooks and journals, faculty and resident phone numbers, as well as *all expectations, including grades*. These expectations are also reviewed at the orientation. The office phone number is 702-992-6896 or 702-992-6888 (*front desk*).

INTERNAL MEDICINE

The twelve-week internal medicine rotation is held at University Medical Center and internal medicine faculties private offices. Eight weeks of the students' time is spent at University Medical Center and the Department of Internal Medicine at 2040 W. Charleston Blvd. Suite 300. Students will perform **H&P's**, **SOAP** notes, and follow the progress of internal medicine in-patients at UMC hospital. For the additional four weeks, students will rotate with either a Community Preceptor or Faculty Preceptor's ambulatory clinics. There students see patients from the community with assigned faculty members. A daily resident morning report, a weekly student morning report, and daily student didactic sessions are also held at our department facility.

GOALS AND OBJECTIVES

- 1) For students to learn, practice, and become informed about the many aspects of internal medicine
- 2) For students to work with and see how a community internal medicine physician practices medicine
- 3) For students to improve assessment and diagnostic skills by seeing patients in both a clinic and hospital setting
- 4) For students to learn how to research topics, and how to prepare, as well as, present a professional presentation
- 5) For students to learn how to read a basic EKG, labs and radiology reports.

During this rotation students are expected to attend all didactic sessions ward and ambulatory clinic assignments, and read all of the required readings (*distributed during the rotation*). Students will have a test at the end of their rotation.

A one-hour internal medicine orientation is held on the first day of the rotation at 2040 W. Charleston, Suite 300, after the main clerkship orientation. There, students will be given a folder with didactic schedules, schedules and assignments, required readings, suggested textbooks and journals, resident phone numbers **as well as, all expectations, including grades**. These expectations are also reviewed at the orientation. The office phone number is: 702-671-2345.

PEDIATRIC CLERKSHIP

The pediatric clerkship is a six-week rotation at University Medical Center. Three weeks are spent in the in-patient ward rotation, under the supervision of a full time faculty, working directly with pediatric residents. Of the remaining three weeks, one week is spent in the normal newborn nursery with a neonatologist and two weeks are in an outpatient general pediatric clinic under the supervision of pediatric faculty. The Department of Pediatrics office is located at 2040 West Charleston Boulevard, Suite 402.

Each student is provided with a syllabus for the rotation, which describes the goals and objectives of the rotation including the requirements for completion, evaluation and grading, and suggested reading and reference materials.

An orientation to the clerkship occurs on the first day, during which time the syllabus and schedules are distributed and discussed in detail. Students are expected to have prepared for this orientation as a form letter is sent to students scheduled for the rotation, indicating the material to be read and that syllabi are available one week prior to the rotation

OBSTETRICS AND GYNECOLOGY

The School of Medicine clinical campus in Las Vegas is the location for this six-week clerkship. Under the supervision of faculty and house staff, student experience and responsibilities in both inpatient and outpatient care are used for establishing a knowledge base in the fundamentals of obstetrics and gynecology. Educational exercises held twice weekly at which time an assigned student makes a desktop presentation are used to develop clinical reasoning skills and serve as a forum for faculty evaluation of student independent learning. Students are also required to present one basic science article chosen by faculty from recent medical literature using common computer presentation software. Students are evaluated for their presentations at a post-presentation conference. There are also weekly faculty-led exercises in patient management at which active student participation is encouraged. Students have the opportunity to advance performance skills in the labor and delivery suite, operating theater and clinic. Grading is based on satisfactory performance of clinic responsibilities determined by faculty using standard evaluating instruments, and cognitive achievement on a departmental written objective examination. Details can be obtained at the department's web site at http://www.unr.edu.med/residency/lasvegas/obgyn/medical_students.asp.

GOALS AND OBJECTIVES

- To provide a background in obstetrics and gynecology for a general medical education
- To advance clinical problem solving skills
- To encourage the development of interpersonal skills essential to a successful professional career
- To provide an educational environment that will enhance life-long learning habits

WHERE TO REPORT

Students are to report for orientation on the first day of their clerkship at 8:15 a.m. at the UNSOM 2040 West Charleston Boulevard, Suite 200 Conference Room. The education office phone number is: 702-671-2385. Please watch your e-mail prior to the start date for any changes to this information.

TEXTBOOKS

An evaluation of currently available general texts will be made at orientation.

SCHEDULE

Student clinical responsibilities are centered on the Gynecology Service, Labor and Delivery Unit and Outpatient Clinic. These responsibilities include participation in ward rounds, obstetrical deliveries, major and minor surgery.

CONTACT PERSON(S)

David Gremse, M.D., Interim Chair Jon M. Hazen, M.D., Program Director Harrison Sheld, M.D., Clerkship Director Carol Allen, Residency Coordinator, caallen@medicine.nevada.edu Jessie Herrero, Administrative Assistant/Clerkship Administrator, jherrero@medicine.nevada.edu	
Phone 702-671-2300	Fax: 702-671-2333

PSYCHIATRY AND BEHAVIORAL SCIENCES CLERKSHIP

GOALS AND OBJECTIVES

To provide a basic educational experience in Psychiatry and in psychological aspects of illness and health care relevant to all physicians. In pursuit of this goal, students' clinical training should achieve a balance in its emphasis on:

- Inpatient and outpatient psychiatry
- Acute and chronic disorder
- Psychiatric disorder and psychological accompaniments of medical disorder

WHERE TO REPORT

A letter will be sent indicating where to report for orientation. During that orientation, assignments will be made and questions answered. The students then proceed to their assigned site around noon.

TEXTBOOK

Recommended reference list will be made available at orientation.

SCHEDULE

The primary clinical site in Reno is the Northern Nevada Adult Mental Health Services, where the students will spend three weeks. A secondary clinical site would be the consultation liaison with the Washoe Medical Center, where again students will spend three weeks.

The primary clinical site in Las Vegas is the Southern Nevada Adult Mental Health Services, where students will spend four days of the week. Three areas of clinical service will be involved in training:

- acute inpatient units
- outpatient medication clinics
- the crisis/observation unit (*psychiatric emergency service*)

A secondary clinical site in Las Vegas where students will spend one day of the week is the V.A.M.C. Outpatient Psychiatry Clinic. At this site, the student will experience outpatient psychiatry and treatment approaches to substance abuse.

SURGERY CLERKSHIP

GOALS AND OBJECTIVES

The surgery clerkship is an exacting and time consuming experience during which dedication, sacrifice, and effort are expected of each student. In return, the student can expect an organized and thoughtfully prepared curriculum.

Upon completion of the course, each student will be able to demonstrate the following goals to the satisfaction of the faculty:

1. A broad understanding of the surgical implications of and current therapy for surgical disease.
2. A facility with broad areas of medical knowledge and how they pertain to surgical patients.
3. The ability to perform basic surgical skills.

WHERE TO REPORT

The first day of your surgery clerkship will be held in Las Vegas. Those students beginning their rotation at the Reno VA will fly to Las Vegas for the full-day orientation.

The twelve-week surgery rotation is divided into four, three-week rotations. Each student will spend three weeks at the Veterans Administration (VA) Hospital, which can either be in Reno or Las Vegas. The remaining nine weeks are spent in Las Vegas.

Please refer to the Office of Medical Education Clerkship Schedule to determine if you start in Reno or Las Vegas.

Reno students: Please wear a white jacket with the appropriate School of Medicine name tag and bring a stethoscope. Report to the V.A. Medical Center, Second Floor ICU, for morning rounds with Surgery Staff at 7:30 a.m. After rounds, please come by and see Sandy Kosinski, Third Floor Surgical Service, Room 309, for orientation. Sandy will issue your beeper and orientation schedule.

All students, whether in Las Vegas or Reno, will report to the Department of Surgery housed in University of Nevada School of Medicine, located at 2040 West Charleston Boulevard, Suite 501, in Las Vegas, at 8:30 a.m. for an all day orientation. This is to be set up with Gloria Brown in Surgery at 702-671-2338.

TEXTBOOKS

A list of suggested textbooks can be checked out in the Department of Surgery, Suite 501, in the 2040 West Charleston Boulevard, Las Vegas Campus.

SCHEDULE

Students will be assigned rotations with a variety of surgical services upon arrival.

CALL SCHEDULE

Students will be assigned a call schedule upon arrival.

APPENDIX E

Connecting to the Internet in Las Vegas

Hello Medical Students!

For those using PPP (*dial-up access*) while in Reno, you can connect using PPP (*dial-up access*) from Las Vegas.

If your laptop or home computer were setup to dial into UNR, then all you need to do is to set them up to dial the Las Vegas phone number: 702-740-4800 (*that will get you into the modem pool at UNLV*).

You should get a black box where you enter your login:

- Type in your **UNR NetID@unr** (e.g. "rboyd@unr")
- Hit the **ENTER** key, and then
- Type in your **UNR NetID** password and
- Hit the **ENTER** key again
- Click **CONTINUE** when the strange characters appear

Once the connection is established, you can open up your browser and go onto the internet.

If you don't know your UNR NetID login and/or requested passwords, please call the School of Medicine IT Department at 775-784-4625 in Reno.

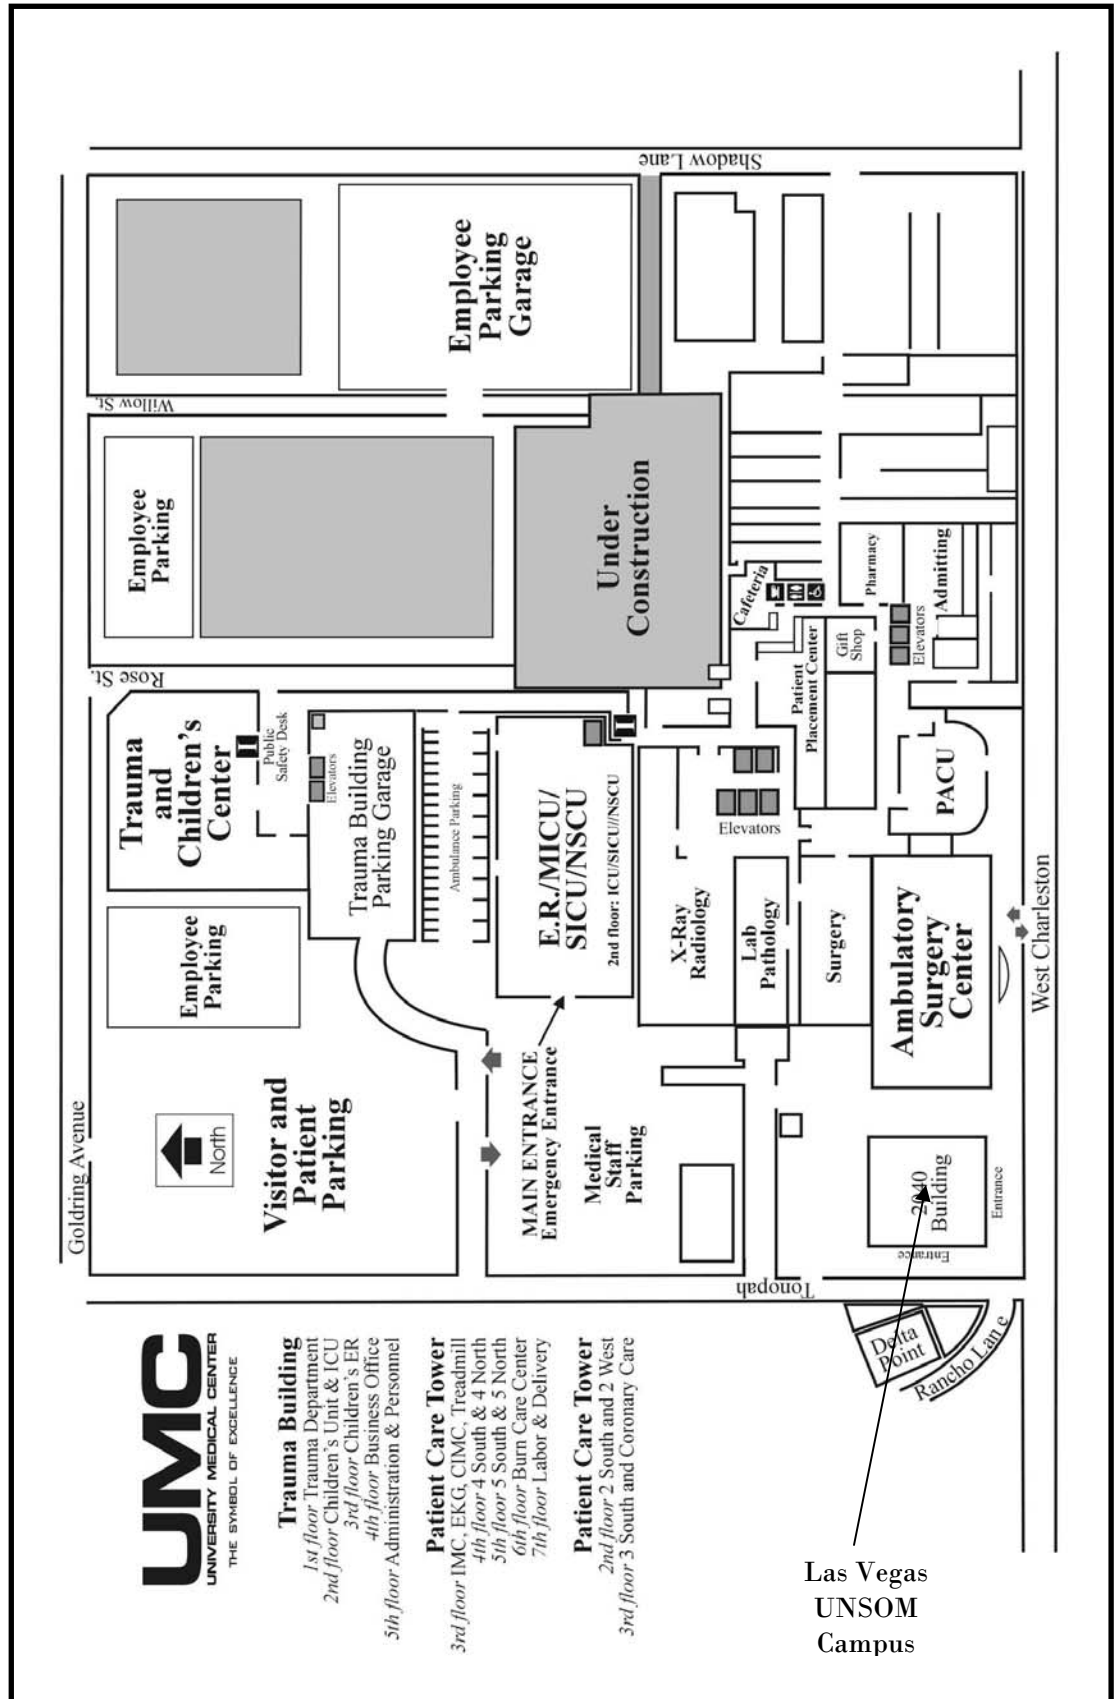

If your computer is not set up for dial-up PPP (*dial-up access*) please go to the following website: <http://www.it.unr.edu/network/ppp/ppp.asp>. Follow the directions to set up your computer for PPP (*dial-up access*).

For access to electronic textbooks and journals, you must use your **UNR NetID** login and password. A UNR NetID can be established at the following website: <http://www.net.unr.edu/apps/netid/activate/asp>.

If you have any questions or run into any problems, please call: 775-784-4625, or email us: Robert Boyd, rboyd@unr.edu or Mark Sexton, mjsexton@unr.edu.

Savitt Medical Library / Mail Stop 306
