Faculty Development Feature

The Office of Faculty Affairs and Development was honored to sponsor, **Dorothy Hudig, Professor of Microbiology & Immunology**, to attend the Mid-Career Women Professional Faculty Development Seminar, December 16-19, 2006 in Scottsdale, AZ. The seminar explored opportunities and realities of senior administrative positions in academic medicine, develop key competencies of academic and organizational leadership, and expand a network of colleagues and a vision of one's own potential for women.

Dr. Hudig believes that the conference has given her an appreciation of the persistent and continual difficulties facing women as they rise into what has been and continues to be a predominantly male-managed workplace. In addition the conference provided her with hope and allowed her to gain support from other women colleagues. Read more about her experience at www.unr.edu/med/faculty/OFAD/

"Women and minority faculty must be first hired, encouraged, consulted and included in all levels of decision making if the university is to take true advantage of the many resources available to them in the form of people with original, informed and valuable voices."
 Dorothy Hudig, Ph.D.

Faculty Development Workshops ~ Departmental Based

The Office of Faculty Affairs and Development is

OFAD Faculty Development workshop participants learn valuable PowerPoint skills in a previous workshop.

introducing ***Departmental Based Faculty Development Workshops*** this semester. If your department is interested in setting up specific training and workshops around research, practice, education, or leadership for your faculty, please contact Dr. Tracy L. Veach at tiveach@unr.edu or 784-6777.
